A DIFFERENT KIND OF APPROACH

Unique Growth Capital's objective is to provide a wide range of options to help businesses with their capital needs. In addition, we work with business owners to plan the succession of their life's work. By creating and financing innovative, long-term strategies that satisfy business and individual needs, we better enable companies to accomplish their desired outcomes.

FINANCIAL SOLUTIONS

Unique Growth Capital has a flexible investment approach and works with private equity sponsors, privately-held businesses, and financial institutions. We can provide financial solutions for long-term growth by offering access to capital that might not otherwise be available. This allows viable companies the means to stabilize and achieve optimum results.

With an accomplished track record, Unique Growth Capital is an exceptionally well-suited partner for developing innovative solutions that address individual capital requirements.
